## How auction works?

This is single seller, forward, private (nobody sees other's bids), 2dn bid winning Auction.

So, if we have 3 bids:

1000

800

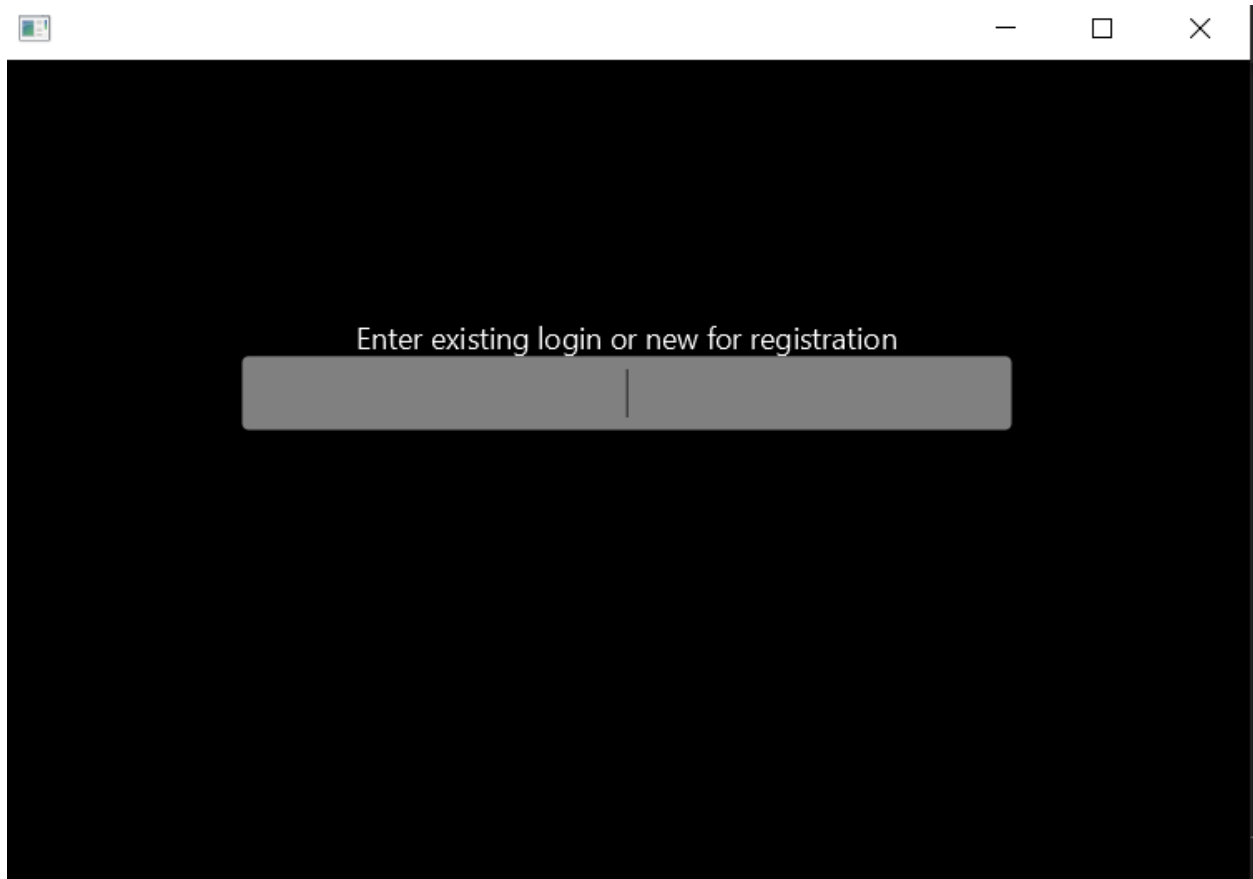

100

Then 800 will be winning bid and every looser of the auction will get back their money

## Login system:

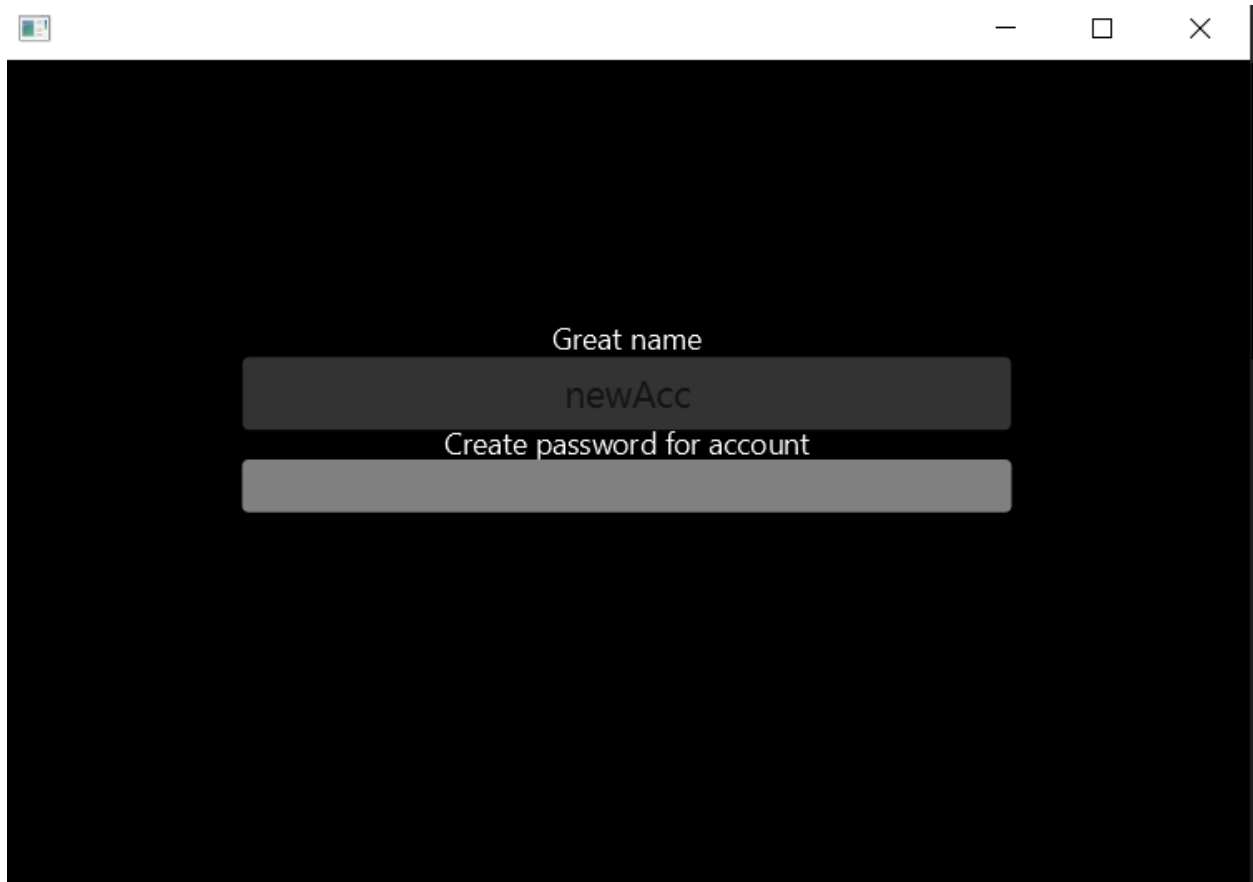

If you see that window, you successfully started the program.

Now you have 2 enter options:

New account login:

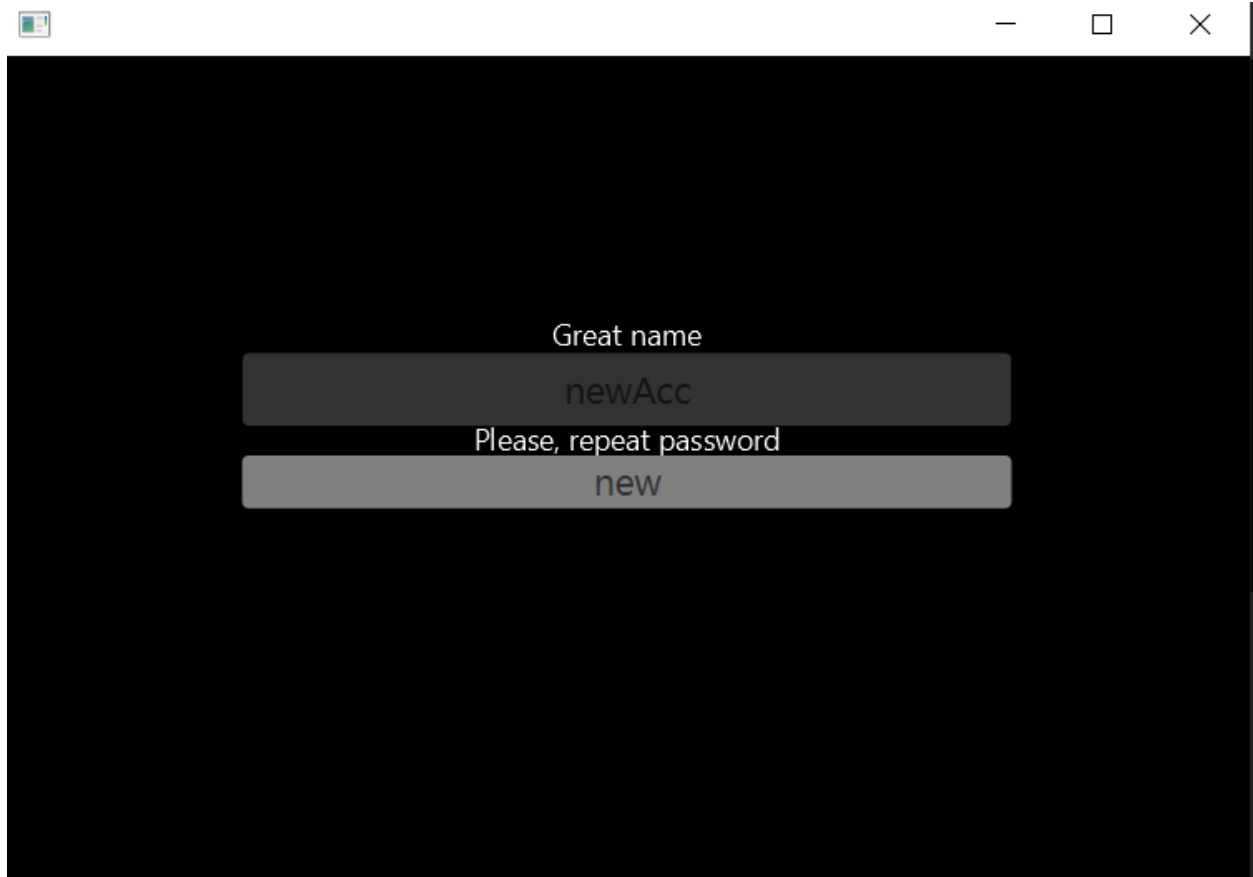

If you entered login and it says "Great name" you are in Sign On branch.

The screenshot shows a web application window with a dark background. At the top, there is a header bar with a small icon on the left and three window control buttons (minimize, maximize, close) on the right. The main content area contains a login form with the following elements:

- A label "Great name" centered above the first input field.
- A text input field containing the text "newAcc".
- A label "Create password for account" centered above the second input field.
- A text input field for the password.

Create password:

Great name

newAcc

Please, repeat password

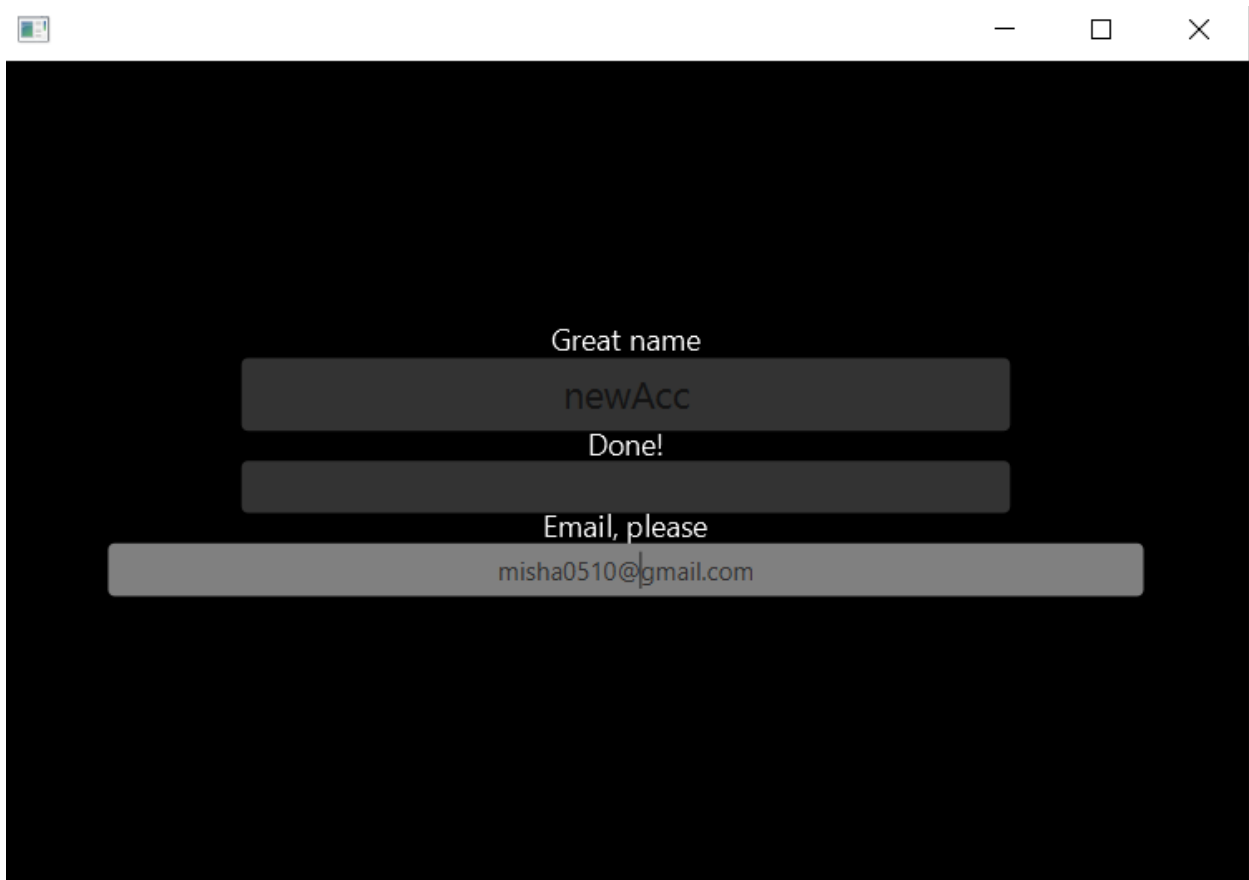

new

Now enter password and repeat it you will be moved to email input

[Enter Email](#)

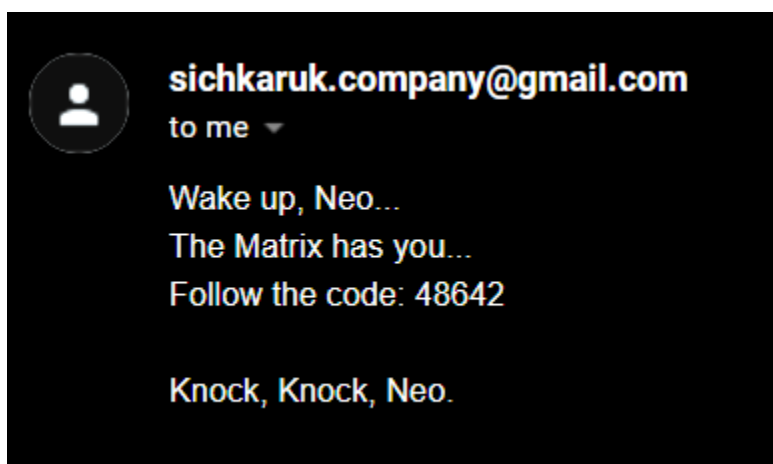

Now just put your email address.

If you have mistaken in your address and you didn't get your activation code – press ESC and try everything from start.

#### Activation Code:

When email is send, input became empty and you can enter your code:

If code is correct you will see:

#### Select Mode:

You can try 1 of 3 modes

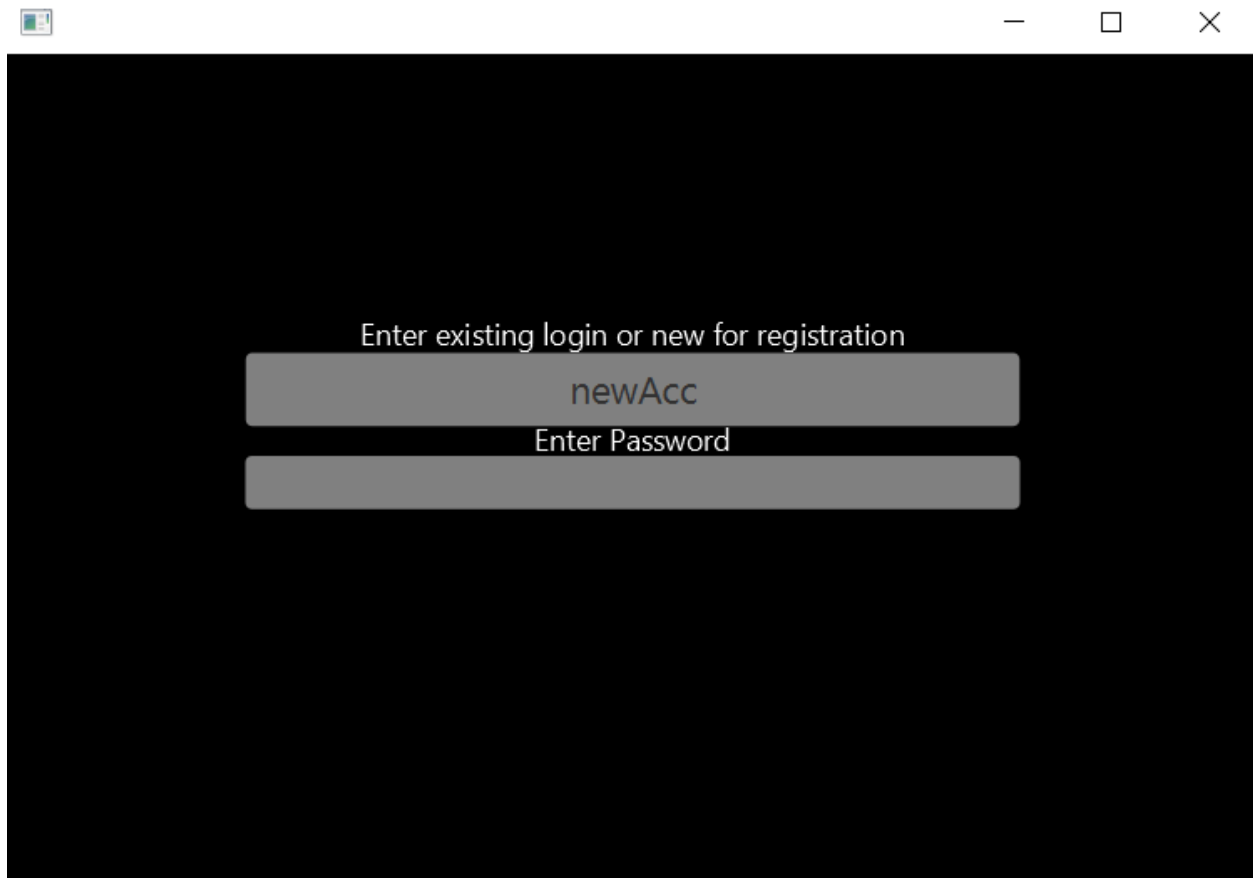

[Seller](#) can add new lots

Buyer can make bids

Auctioneer can end lot's auction.

Exists account login:

You will be asked to enter password

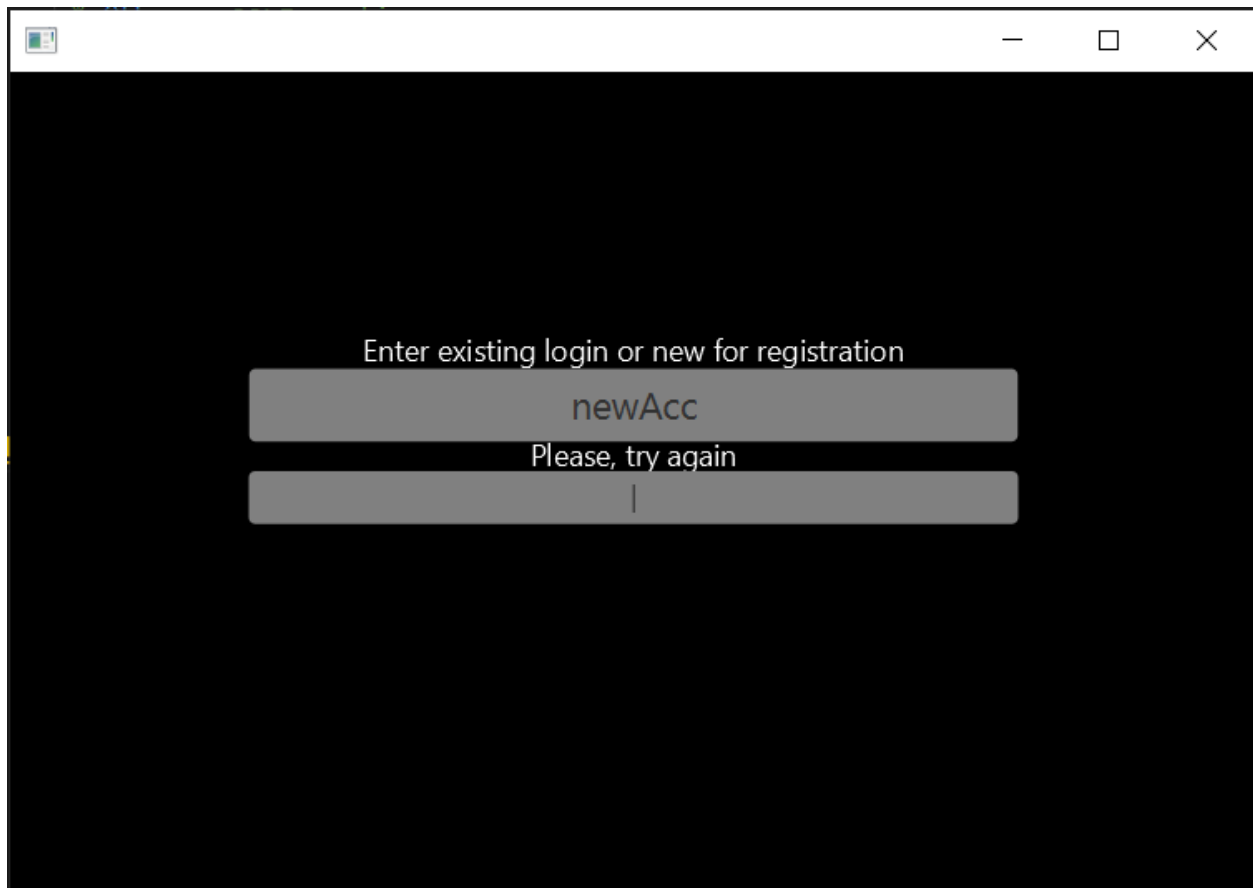

Enter existing login or new for registration

newAcc

Enter Password

If password is wrong, you will see this

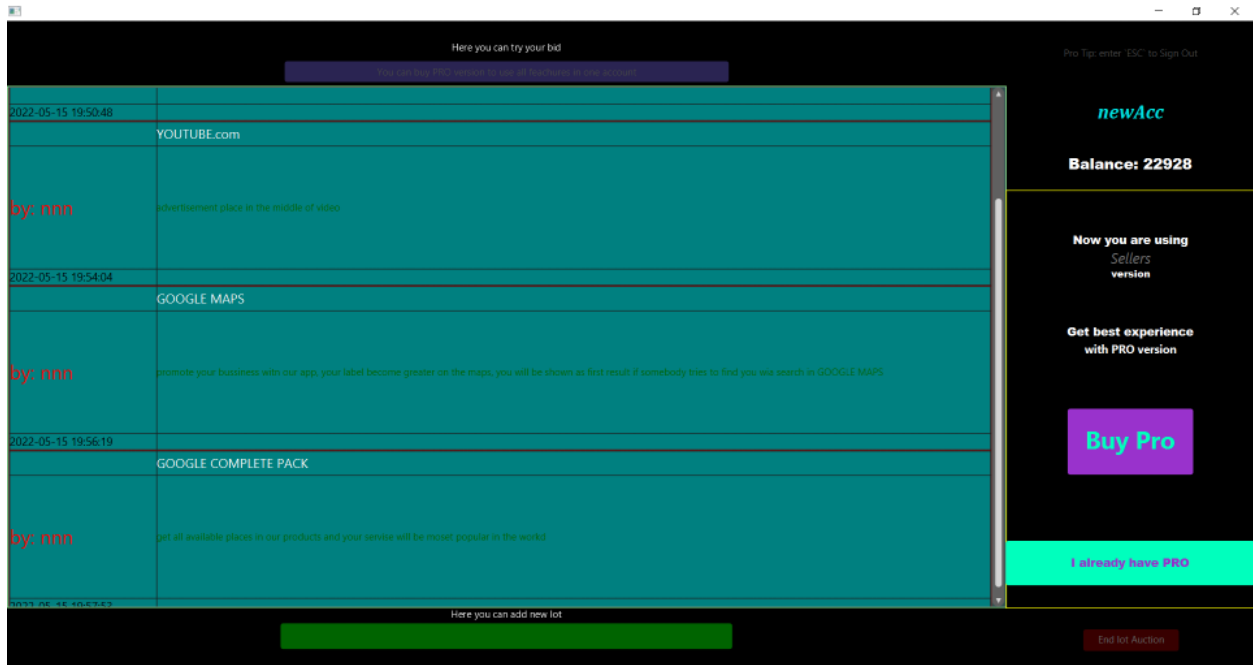

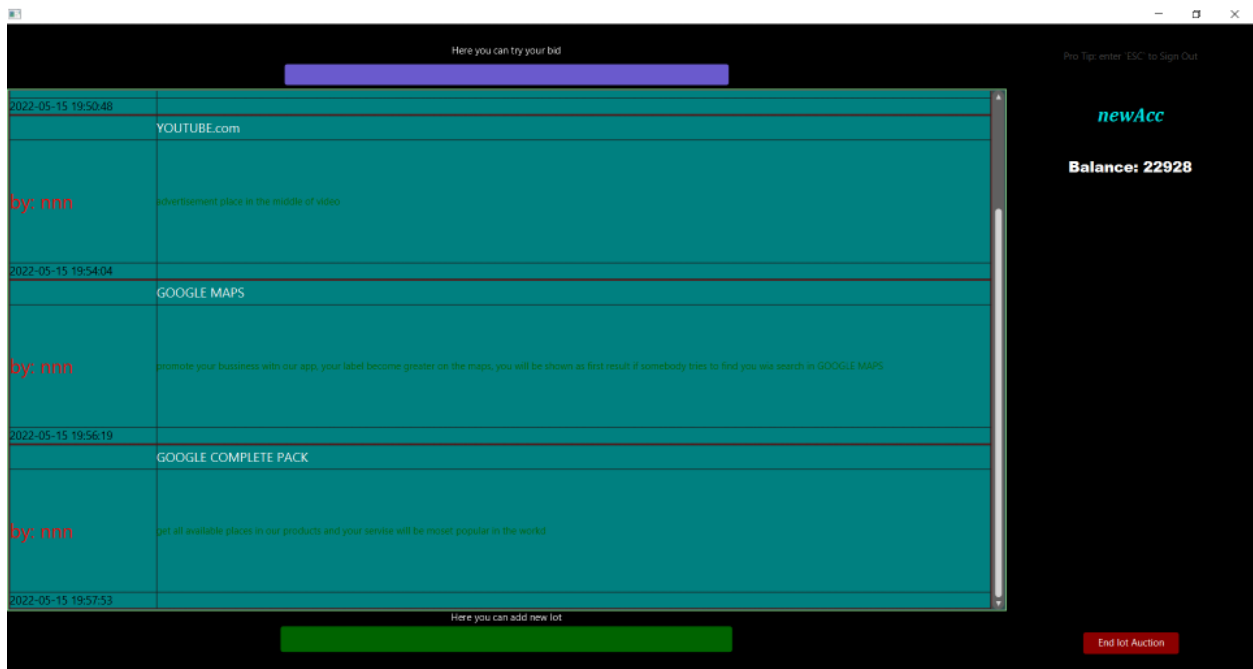

If password is correct:

You will be

Signed in:

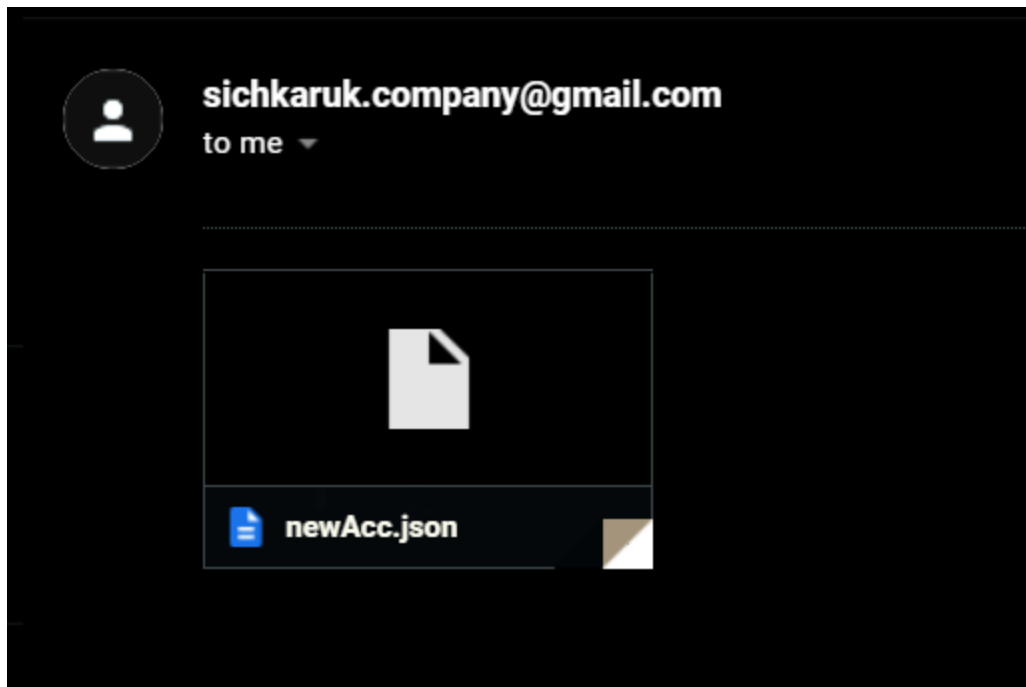

PRO:

BUYPRO:

Name your lot:

End lot Auction

Then put you bid in the top field and press ENTER

If you have enough money you will see:

## End Auction:

If you press on EndAuction Button, auction will be ended.

There are 3 cases:

Case 1: lot doesn't have any bid. Nothing happens, but if you press 2<sup>nd</sup> time Lot will be deleted, no one will win because there was no bids

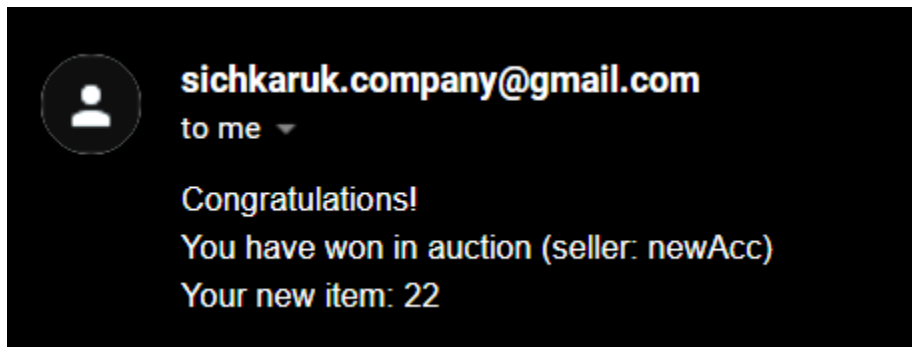

Case 2: Lot have only 1 bid – then this bid is winning

Case 3: Lot have 2+ bids – then 2<sup>nd</sup> bid is winning.

### Auction Winner:

If you win the auction you will get email about it.

If you already purchased PRO version but program still in Seller/Buyer/Auctioner mode while you signed in you should try button -

### I already have a PRO version:

When you pressed the button you should find your (your login).json file on your system. When you select it programm will be swithced to PRO mode

### EXIT:

Press ESC key on keyboard to exit to the login window.
